SKILLS

Technical Skills

- Programming Languages: Java, JavaScript, C#, Python, PHP, C++, SQL, R
- Frontend: React, Vite, HTML, CSS, Bootstrap
- Backend & APIs: Spring Boot, Node.js, Express.js, ASP.NET Core, REST APIs
- Databases & ORM: PostgreSQL, MongoDB, MySQL, SQL Server, SQLite, JPA/Hibernate, Entity Framework Core
- DevOps & Tools: Git, GitHub, Docker, Docker Compose, Postman, Swagger/OpenAPI, VS Code, Visual Studio
- Software Concepts: OOP, Data Structures, JWT Authentication, Role-Based Access Control (RBAC), RESTful API Design, SDLC

Soft Skills

- Problem solving
- Teamwork & Collaboration
- Time management
- Adaptability
- Communication

LANGUAGES

- English
- Sinhala

ABOUT ME

Software Engineering student with hands-on experience building full-stack applications using Java, Spring Boot, React, MERN, ASP.NET Core and relational/NoSQL databases. Experienced in developing REST APIs, role-based authentication, database-driven systems and containerized applications. Seeking a software engineering opportunity to apply and further develop full-stack and backend engineering skills.

WORK EXPERIENCE

Citypak by Advantis
Head Office, Colombo 02

Administrative Supervisor (February 2025 - Present)

- Promoted to a permanent position after completing the internship.
- Oversee administrative operations to ensure efficiency and accuracy.
- Manage and coordinate daily office tasks, ensuring smooth workflow.

Data Entry Intern (May 2024 – January 2025)

- Entered, updated, and maintained company records with high accuracy.
- Assisted with administrative tasks and supported the operation team.
- Gained hands-on experience in office management and data processing.

EDUCATION

- **Higher Diploma (HD) in Computing and Software Engineering**
  ICBT Campus - Cardiff Metropolitan University, 2024 - 2026

- **G.C.E. Advanced Level (A/L) – 2023(24) (English Medium)**
  De Mazenod College, Kandana

  Information & Communication Technology (B)
  Combined Mathematics (S)
  Physics (S)
  General English (A)

- **Cambridge GCE Ordinary Level (O/L) – 2019 May/June (English Medium)**
  OKI International School, Kandana

  Mathematics (A), Sinhala (A), Computer Science (B), Physics,Chemistry,Biology (B each), English Language (C)

PROJECTS

Cinnamon Export Management System - HD Final Project (PHP / MySQL / CSS / Bootstrap / JavaScript)

- Collaborated on a B2B cinnamon export platform with buyer, supplier, and admin dashboards, online bidding, QR-based batch verification, sample requests, multi-currency payments, invoice/certificate generation, notifications, and shipment tracking.
- GitHub: https://github.com/Prabath397/Cinnamon-Export-Management-System

Enterprise Smart Courier System (Java / Spring Boot / PostgreSQL / React)

- Built a full-stack courier and logistics management platform using Java, Spring Boot, PostgreSQL, React and Docker, with parcel booking, customer address management, tracking, warehouse operations, driver delivery workflows, reports and role-based dashboards.
- GitHub: https://github.com/Prabath397/Enterprise-Smart-Courier-System

Nexia AI Chat Assistant (MERN / Express API / Docker)

- Built a full-stack AI chat assistant using MongoDB Atlas, Express.js, React, Node.js, and Vite.
- Implemented JWT auth, role-based customer/admin access, protected routes, admin dashboard, chat history, profiles, and secure password hashing.
- GitHub: https://github.com/Prabath397/Mern-AI-Support-Chatbot

Cozy Comfort SOC System (ASP.NET Core / C# / SQL Server / PHP)

- Built a service-oriented order and inventory platform with REST APIs, role-based dashboards, stock validation, request escalation, notifications and production lead-time management.
- Used ASP.NET Core Web API, Entity Framework Core, SQL Server, PHP and JS.
- GitHub: https://github.com/Prabath397/Cozy-Comfort-SOC-System-ASP.NET-Core

EcoStay Retreat – Resort Management Mobile App (Android / Java / SQLite)

- Developed a mobile booking application with guest/admin roles, room/activity booking, availability checking, notifications, and admin management features.
- GitHub: https://github.com/Prabath397/EcoStay-Retreat-Android-App

Dockerized Student Task Manager (Flask / MySQL / Docker)

- Built a task management web application with user login, task CRUD operations, MySQL storage, and Docker Compose multi-container setup.
- GitHub: https://github.com/Prabath397/Dockerized-Student-Task-Manager

CERTIFICATIONS

- Cloud Computing: Understanding Core Concepts
  LinkedIn Learning | Completed: June 2026

- Cybersecurity with Cloud Computing
  LinkedIn Learning | Completed: June 2026

ACHIEVEMENTS

- Achieved an A pass in the General Information Technology (GIT) Examination, 2023.
- A senior Prefect in the year 2017/2018.
- Subject Award for Mathematics at the Annual Awards Day in the year 2018 and 2019.
